Demonstrate Storage as a Service (SaaS) create and configure a new VM Image in any Public Cloud Service Provider

The image shows two screenshots of the Microsoft Azure Marketplace interface. The top screenshot displays the details for the 'Veritas Backup Exec™ - BYOL' application. It includes the application icon, name, publisher (Veritas), and a 'Free trial' badge. Below this, there is a 'Plan' dropdown menu set to 'Veritas Backup Exec™ - BYOL' and a 'Create' button. The 'Overview' tab is selected, showing a description of the backup solution and its benefits. The bottom screenshot shows the 'Marketplace' overview page. It features a search bar, filters for Pricing, Operating System, Publisher Type, Product Type, and Publisher name. A list of featured applications is displayed, including Azure Data Box, Data Lake Storage Gen1, CB Dynamics 365 to SharePoint Permissions, Soft Flow Managed Service Backup, and Veritas NetBackup™. A 'Backup & Recovery' category is also highlighted, showing Commvault Backup & Veritas Backup Exec™.

Overview Plans Usage Information + Support Ratings + Reviews

Veritas Backup Exec™ provides simple, rapid and secure offsite backup to Azure for your in-house virtual and physical environments, and also protects cloud-based workloads in Azure. Veritas and Microsoft have been working together for over 25 years to help customers recover quickly from critical data loss situations, and easily meet data regulatory requirements.

Backup Exec™ supports you on your journey to the Azure cloud. You choose the path that's right for your business. Public cloud connectors to Azure allow data to be written directly to hot and cool cloud tiers across all geographies. Support for key Azure hardware gateways accelerates IT agility with hybrid cloud options. Simple to deploy in Azure infrastructures, Backup Exec protects data within the cloud, and can also write 256-bit AES encrypted data copies back to your on-prem data center.

Getting started:

1. Create your Azure account
2. Activate Backup Exec from the Azure Marketplace

Veritas Backup Exec™ is the backup solution without barriers, delivered your way. You choose what to backup. You choose where to store it. You choose how to pay for it. Your data remains secure and available at every stage – whether backing up on-premise to Azure, protecting workloads within Azure, recovering from Azure, or connecting to on-premise storage. Choose Backup Exec and you can now connect with an ever-expanding family of solutions helping you to run your business with confidence.
